This information is provided for purchasers of AmpliScribe™ T7-Flash™ Transcription Kits represented by the following Epicentre catalog numbers:

ASF3257 ASF3507 ASF3057

And AmpliScribe™ T3-Flash™ Transcription Kits represented by the following Epicentre catalog numbers:

ASF03725 ASF03750

The AmpliScribe™ T3 and T7-Flash™ Transcription Kits contain several reagent tubes.

The 10X Reaction Buffer (BP1001) supplied with the kits is not known to be hazardous.

The tubes labeled T7-Flash™ Enzyme Solution, T3-Flash™ Enzyme Solution” and “RNase Free DNase I” contain proteins isolated from non-hazardous bacteria. These proteins present no known threat to humans or laboratory animals. Each of these protein solutions is supplied in a 50/50 glycerol:H₂O solution containing salts and a detergent. A material safety data sheet for glycerol is provided. These materials are for research use only.

The remaining tubes in the kits contain dilute aqueous solutions of detergents, salts and/or biochemicals, none of which are thought to be hazardous and hence do not require separate MSDSs.
