This information is provided for the purchasers of the products described by the following EPICENTRE catalog numbers:

FSRC3832 FSRC3896 FSRC38384

The FailSafe™ RealTime PCR Capillary PreMix Selection Kit and the FailSafe™ Real-Time PCR Capillary System (FSRC3896 and FSRC38384) contain enzymes isolated from nonhazardous bacteria. These proteins present no known threat to humans or laboratory animals. These protein mixes are supplied as 50/50 glycerol: H<sub>2</sub>O solutions containing salts and detergents. A material safety data sheet for glycerol is available.

The remaining tubes in each of these products contain FailSafe™ Real-Time PCR Capillary 2X PreMixes. The premixes contain aqueous solutions of salts, Sybr Green I, and dNTPs, none of which are thought or known to be hazardous at the concentrations provided and hence do not require separate MSDSs.
